};

export default FlightCard;

```

▮ Setup Instructions

1. Create React App:

```

npx create-react-app flightops-dashboard
cd flightops-dashboard

```

2. Install Tailwind CSS:

```

npm install -D tailwindcss postcss autoprefixer
npx tailwindcss init -p

```

3. Replace all files with the code above

4. Start the application:

```

npm start

```

✦ Features Included

- ✓ **Exact UI Match:** Pixel-perfect recreation of your design
- ✓ **Tailwind CSS:** Modern utility-first styling
- ✓ **Responsive Design:** Works on all screen sizes
- ✓ **Avatar Integration:** Automatic avatar generation
- ✓ **Clean Architecture:** Modular component structure
- ✓ **Production Ready:** Optimized build configuration

The application will run on `http://localhost:3000` and display the exact crew attendance dashboard shown in your image!
